

Faith Community Nurse

A Faith Community Nurse (FCN) is a registered nurse with a current license to practice in the state he/she will be serving that works in a faith community to address health issues of its members and other members in the broader community or neighborhood. The experience the nurse has gathered working in other medical areas/ specialties aids the nurse with assessment of health status, health needs, and collaboration with health agencies. What makes this specialty different is the conscious partnering of health issues with the faith of the client and client's family. The core to this practice is the intentional care of the spirit of those the FCN assists.
